

European Phase-Change and Ovonic Symposium (E\PCOS)

The E\PCOS 2024 comes to Leipzig, Germany.

Join us from 22 to 25 September 2024!

E\PCOS 2024 brings together the phase-change community to discuss recent and breaking scientific and technological achievements of phase-change materials alongside their possible new application areas. It is the premier and independent phase-change materials conference, which has evolved to represent emerging interests in neuromorphic computing, phase-change photonics and plasmonics.

Submit your abstract via the web page
